

Trunch Composting

Thank you for agreeing to donate garden waste to the Compost Group. Last year we collected 21 tonnes which raised £1064 for the village.

Your collection day will be on alternate Saturdays starting on Saturday 8th April.

Please leave your bags out by 9 am.

Please use separate bags for:

- Grass cuttings, **but please, only from lawns which have not been treated with selective weedkiller - even in a previous season.**
- General weeds and plant clippings
- Woody prunings
- Leaves will be collected later in the year

Please Avoid

- Any garden waste that may have been in contact with WEED KILLER chemicals, because some preparations are not suitable for composting and could contaminate our compost.
- ANY Leyandii
- ANY Horsetail or Couch grass.
- ANY diseased plants.
- ANY amounts of soil or clods of earth.

Please DO NOT include

- ANY kitchen waste including veg peelings or scraps.
- ANY pet waste.
- ANY household waste including plant pots, labels, string, and plastic.
- ANY non compostable waste – stones, bricks, logs etc.
